Electric Surgical Table

*Better care
Better comfort!*

YA-12E

ELECTRIC SURGICAL TABLE

The YA-12E electric surgical table, featuring large wheels for effortless mobility, stands out with four memory functions satisfying the use habits of the different doctors. Its advanced outlook design exudes sophistication, making it the top choice for modern surgical settings. Additionally, the inclusion of an automatic locking mechanism in the manual controller ensures safety, and the pause during the return to the original position enhances overall control and precision.

FEATURES

- Effortlessly store and recall four customized positions for precise and efficient surgical setup.
- Ensuring precision and safety, the table automatically pauses upon returning to the original position, allowing for meticulous adjustments in a secure surgical environment.
- Enhanced safety by automatically locking when adjustments have not been made for a period of time, preventing accidental activation and minimizing the risk of accidents
- X-ray transparent bed surface,
- Sliding table board movement (300mm) for versatile C-arm/X-ray imaging without patient repositioning.
- Stainless steel base and lifting column for easy cleaning, disinfection, and durability.
- One-Key Return to "0" Position,Streamlines the workflow with a single button press
- Large Wheels facilitate easy mobility of the surgical table for enhanced flexibility during medical procedures.
- A backup battery ensures uninterrupted functionality during power outages, offering a reliable and continuous power source for critical surgical procedures.
